The State and county tax for this year is 93

The dedication of the new Methodist Church of Walhalla will take place on next Sunday morning after preaching.

The Board of County Commissioners will meet on Saturday next at their usual place of meeting.

The Columbia Register says the engrossing topic is: Have we a Code as the result of the long session? And the general opinion is that we have-the old one.

Notice change of schedule on the Blue Ridge R. R., in this issue. The passenger trains now arrivo at Walhalla at nine twenty-three P. M. Leave at 7 20 A. M.

We are requested to give notice that the Rev. S. L. Morris will preach in the Westminister Methodist Church on next Sunday morning at Il o'clock.

The first quarterly Conference of the Methodist Church on next Saturday and Sunday, the 18th and 19th instants. Rev. S. B Jones, D. D., will preside. The cloudy wet weather continues. As a

consequence the roads are almost impassable on account of the mud. On Tuesday afternoon we had heavy showers of rain, hail and thunder. The weather is spring like. Just look at the advertisement of Messers. C. L. Reed & Co. in another column! and see if

you can ever get another night's rest for dreaming about great fields and medows waving with oder-bearing grasses and pastures filled with stock as sleek as Pharaoh's kine. The average drummer knows a good thing BUSINESS when he sees it. Hence we are not sur-

Biemann's to spend a leis tre hour and enjoy the good things of his house. We are requested to give notice that the Young Ludies' Society of "Earnest Workers" of the Presbyterian Church will give a dime reading at the Female College on next Friday

prised to see them congregating at friend

night. Mrs. Legare and her music pupils will furnish music for the occasion. Our interesting neighbor, the Pickens Sertiact, has been enlarged and otherwise improved. The Scalingl is a stalwart Democrat and fights upon that line. The paper is also devoted thoroughly to the local interests of Pichens. It has our best wishes for its

consinued success. Col. Walter Gwin, et one time chief engineer of the Blue Ridge Reilread, died recently. Col. Gwin was a natice of Virginia and a graduate of West Point. He was al o a Brigndier General in the Confede are namy. Cal. Gwin will be favorably recollected by a number of our older citizens

The Board of Trustees of the South Carolina University have decided that the following additional professorships should be created: Ancient Languages; Agriculture; Mental and Moral Science and Logic; Mechanical Philosophy and Physics; History, Political Economy and Constitutional Law. The salary of the Professors will be \$2,000 each. A Tutor of Modern Languages was also determined upon. The chairs will be filled at the meeting in May next.

We are glad to announce that the Scientific A.e. con came out of the late fire in New Yo k, like the failed Phonix, with renewed life. The subscription lists, account books, records, patent drawings, and correspondon o were preserved in massive tire proof ries. The mining of the Scientife A. . ieg., end Sont out was done in another building; consequently the tyres, plates, p esses, paper, etc., were anharmed and no interruption of business was necessioned.

We has a received the first number of the Reform Signal, published in Columbis, S. C., by the "Farmer's Publishing Company." J. Hendrix Meline is the business manager of the paper. The S'yaat is 'mil- 'ug, anti-bourbon, antimonopoly Hew to toe line, let the chips full where they may." The price is \$1 a year in advance. The Signal is something new in the policies of the State. Fair discussion and honest methods can do no harm, but on the contrary may accomplish much good. The Signet is on the line of reform and we hope it will accomplish much for the State. We think, however, this reform can be secured inside the party better then outside.

The new Stientim American offices are loca'ed at 201 Broadway, corner of Warren Street, a very central and excellent situation. The new building fronts towards the City Hall, the Court House, and the New Post ofice -- a magnificent structure, which cost eight millions to build. Nearly opposite, and a few hundred feet distant from the & isnific American offices, is the entrance to the great Suspension Bridge over the East River, be- Le ve Walhalla at tween New York and Brooklyn, which required ten years to construct and twenty million dollars to pay for. In front, also, of the hele the Ame. 'cea is the City Hall Park and Prin ing House Square, with its statue of Benjemin Louklin, and the homes of eminent enitors and newspapers, such as the New York T. .. New York Times, New York Str. New York World, New York He, old Meil and E nees, Zeiling and many others.

Augusta News: To day, February 11th, 1882, Hon A. H. Stephens is 70 years old. Three score and ten. No man in this broad land, North or South, has filled the measure of his days with more usefulness to his fellow men than Hon. Alex. II. Stephen . The News sends him congratula tions, and in the name of the people of Augusta, of the Eighth District, the State and the South at large we wish him many years, if possible, fall of wise counsels to his fellow men. RADICALS CRAWLING OUT .- Columbia special to the News and Courier of yesterdey: "I was told yesterday by a promi nent Republican politicien that it was determined at the recent conference of the central Republican Executive Committee to hold a general conference in this city on The first quarterly Conference of the the 2d day of Msrch. This conference Walhalla Circuit will be held at the Walhalla will be attended by two delegates from every county in the State, who will be chosen by the Central Committee. In fact, they have already been selected and on last Tuesday invitations were forwarded asking them to attend the conference. This mode of selecting delegates, as my informant suggested was adopted "in order that the brains of the party might be brought together." The conference in March will shape the future course of the party and finally determine upon some definite plan of political action. "The brains of the party" will furnish an interesting study for the newspaper people at least.

### LOCALS.

I have undoubtedly the prettiest assortment of pocket cutlery, rezors and rezer streps that has ever been in Walhalla.

A pretty lot of birthday cords on hand. Another fine lot of that nice walnut tuffy, cocoanut cream, chocolate drops, &c., just received.

Special attention given to prescriptions. V. L. NORMAN.
